Global strength and local focus

THE LEADING GEOTECHNICAL SPECIALTY CONTRACTOR

Every day, people around the world live, work, and play on ground prepared by Keller.

Used alone or in combination, our techniques solve a wide range of challenges across the entire construction sector – from industrial, commercial, and housing projects to infrastructure construction for dams, tunnels, transportation, and water treatment, as well as projects to address environmental challenges.

With some 10,000 employees and operations across five continents, we have the people, expertise, experience, and financial stability to respond quickly, get the job done, and see it through safely. With a North American presence of over 100 years, Keller operates as the market leader with over 60 offices throughout the US and Canada.

These are the main categories of solutions we provide:

Deep foundations Ground improvement Groundwater control Liquefaction mitigation Releveling structures

Slope stabilization Support of excavation Underpinning Industrial services Instrumentation & monitoring Post-tensioning
